Committee: House Committee On Rules  
Measure: HJR201

This legislature continues to attempt to take power and decision making away from county government which best understands and represents its people.

They do not understand that it is more spending, hiring more people results in worse measurable outcomes. It needs to end. And locally elected county authority needs to be protected from the self-described wierd Portland area majority, that has ruined one of the best cities in America in just one decade. Locally elected County authority needs to be restored in legislation for Oregon and this bill must be stopped dead in its tracks. Start electing a legislature that will remove the statutory overreach which has established far too much state dominance over soviergn and local county governments NOW.
