

Submitter: Deidre Dodson
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

Good morning,

I received information concerning a possible amendment (Oregon Constitution) to give more money and power for (public safety) I believe this will absolutely not do anything for the and safety of tax paying citizens) to our Oregon government of which I am taxed already without representation. This is a tragedy. I oppose any action, (amendment). We give until we bleed already for a mess we the taxpayers have not created. This incompetent government is destroying Oregon within and every citizen by design and intention. If not for GOD there would be no HOPE. But for GOD there is great HOPE. Again I strongly oppose this amendment that will no more benefit Oregonians but would be used to further destruct this once beautiful state that I was born in. We pray without ceasing for you all for good. May The Lord bless you today and give you great wisdom and understanding to protect and prosper those Oregonians through which you are to govern.

Thank you

Deidre Dodson
