

Submitter: Kristen MacKay
On Behalf Of: All our children
Committee: Senate Committee On Education
Measure: SB1583

I oppose SB 1583. This poorly designed bill takes away the school boards decision making abilities and gives that authority to the State Department of Education. School boards are an essential part of the public education system. This bill furthers the intrusion of sexually explicit books into our schools. The focus for all our children should be on academics. Please vote NO to protect all of our children.
