

Submitter: Melanie Kelly

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB4086

Chair Reynolds and the Members of the House Early Childhood and Human Services:

We are supporting HB4086.

Our organization does mental and behavioral health therapy and supports through outpatient, day treatment and behavioral rehabilitations services and works with children and families the communities of the Columbia River Gorge

This bill would encourage consideration of a system that works better and is more responsive for youth and which will incentivize our staff to stay with our agency longer, and develop these types of important relationships which lead to successful outcomes.

Please support this important legislation today.

Sincerely,

Melanie Kelly, LCSW, CSOTP, CADC II
