I run a small business, I try to pay my employee a living wage but she has to pay so much in taxes, that she doesn't have enough to buy food and she doesn't qualify for food stamps. Yet the politicians of our state want to raise taxes so they can support homeless people who if they had to work to support their habits instead of getting free drugs, food, etc., their might not be so much homelessness. If people had to pass a drug test to get their welfare money, there would be a lot more money for people who really needed it Use the taxes to help people who are trying to make it by working, instead of giving it to Hillsboro baseball or bailout art groups, what about the people that were burned out by wildfires. I have come to the point that I am going to file my tax return as TAX EXEMPT. You as REPRESENTATIVES of the people should be accountable to the people instead of lining your pockets, You pay the taxes out of your pocket, you support these off the wall things out of your pocket, because they are for the rich people, not the average everyday citizen.
