

Submitter: Kerry Melton

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Property taxes already brake the backs of Oregonians. The people can't sustain another money grab. "We the people " need to feel heard by our representatives, and this over reach is killing your constituents. When only a few are paying for the majority of services, you're stripping away any benefits of home ownership that we have. Please reconsider what you're doing. Remember, as we get older ,there is less money we have to work with. Thank you!
