

Submitter: Laura Hollis

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Please do not pass HJR201. It would end up increasing taxes on older, fixed income people and raise rent on people that are barely making it. I have a rental and try to not overcharge my tenants, but if you increase my taxes....I'll have no option then to increase my rent! This seems like it should be a vote that the people of Oregon get to decide on, let us decide and get a clean understanding of what safety issues you are planning on spending this money on.
