

Submitter: STEVEN LACERDA

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Most of us in Oregon can barely afford to live right now, and you want to tax us more for your pet projects. How about you start cutting unnecessary programs? How about you stop funding illegal immigration? Get out of the American People's way and allow us to thrive because all you're doing is making our lives more difficult.

You will lose money with this proposition as businesses and homeowners flee. Ask California how high taxes affected their state, which is 68 billion dollars in debt.
