

Submitter: Ponta Abadi

On Behalf
Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal
and World Affairs

Measure: SB1548

This is not what we voted for and would be detrimental to mental health in a state that already struggles with dark winters. Standard time would mean the sun comes up at an ungodly hour and sets at 8pm or earlier in the summer. Absolutely no one needs the sun to rise at 4am in the summer but many of us look forward to those late sunsets. The real issue is the 4:30pm sunsets in the winter, but this bill would do nothing to change that. Please consider not disregarding Oregon voters. I would rather we keep switching twice a year than stick to standard time.
