

Submitter: Stephanie June Johnson

On Behalf Of:

Committee: House Committee On Economic Development and Small Business

Measure: HB4124

I am in support of 4124. I am a member of local union IATSE 488 and work in the film & tv industry as a makeup artist. Said industry has been negatively affected by both COVID-19 as well as last year's industry strikes. We have all seen reductions and complete stops of filming in our area. We desperately need help building the industry back up in Oregon. There is still not enough work for everyone. This was happening before Covid too. Please consider supporting this bill in favor of creating jobs in an important, profitable industry here in Oregon.
