

Submitter: Todd Gooding

On Behalf Of:

Committee: Senate Committee On Natural Resources and Wildfire

Measure: SB1590

Dear Senators,

As both a fisherman and a recreational boat user I am in favor of SB1590. In addition the electrification motors for recreational boats is coming sooner than you think. Given the weight of the batteries from electric motors, they will never pass the weight limits currently in place. I would much rather promote recreation in clean water from battery use vs having petroleum products being discharged into our environment from internal combustion engines.
