

Submitter: Kathy Clanton

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

Gender ideology has NO PLACE in our classrooms! I am a parent and grandmother and I do not believe my tax dollars should be supporting the indoctrination of our kids to an ideology that not only denies basic biology but has zero foundation in evidence based research! Our kids are not even able to read write or do basic math and yet the school system wants to teach this new cultish "religion" to them! DO NOT condone this! Keep our classrooms focused on academics and not political indoctrination!
