

Submitter: J V

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

Dear Legislators,

Please support this measure to help Oregon Educators give a story, a face, and acknowledgement to those who are in the minority groups whether that is a cause of religious beliefs, sexual orientation, ethnic or racial minorities and people with disabilities.

I am a special education teacher and a lesbian mom.

It is still difficult to find literature depicting folks in these categories leading full and happy lives.

If you are in the majority imagine living in a country where you are a persecuted, feared and stigmatized white person where the literature only depicted you as such or just left you out all together.

Thanks for
Listening!
