

Submitter: Robert Brown

On Behalf Of:

Committee: Senate Committee On Natural Resources and Wildfire

Measure: SB1590

Our public resources should be for everybody and used with balancing mind not just one particular segment of the public. Water sports enthusiasts should have equal access to the resources that are fees, registrations and tax dollars support. In recent years there has been an unfair unbalanced approach to natural resource usage benefiting a small percentage of the population. SB 1590 brings that usage into a more equal share. It's time that our legislators supported the needs of all the voters and not just the ones that make you look like the "good guy"
