

Submitter: David Brown

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB1564

I am writing to support this bill.

The severe housing shortage that exists in Oregon today was created overtime by status-quo policies that have handcuffed cities, overregulated builders, and stifled development. The reforms in this bill will free up land to invest in housing of all types in all communities, not just Portland, and not just for low-income.
