Measure: HJR201

Are you kidding us. You have one of the largest taxes for a state in the US. You have to give a kicker because you have too much taxes collected and now you want to tax us without sending it to the voters. You wonder why we know that you cater to special interest groups and not do what is best for the people. You keep passing laws that only hurt the residents of Oregon and create problems. Because of you we know have untold number driving around without registered cars or insurance. we have a epidemic of homeless and drug usage killing our children. Homeless flocking in from all around the US. So now you want to tax the people more for your lack, inability to rule within you current budget constraints. enforce the laws on the books and let the police do their job and most of this will get cleaned up. No more taxes until you can work for the people interest. More money does not help resolve problems it just lets it get bigger and worse.
