

Submitter: Sean Burgess

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

Please stop this from going to a full House vote. Oregonians are growing weary of new tax schemes and distrustful of our state leadership. Please refrain from adding more tax burdens on us before we see some better stewardship from our government that yields tangible improved quality of life for Oregonians. We don't need another Measure 110 style debacle.
