

Submitter: Jessica Vaughan

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB1572

The proposed study to extend the Westside Express Service commuter line to Salem, conducted in consultation with the Westside Express Advisory Committee, represents a forward-thinking initiative that promises to enhance regional connectivity, reduce traffic congestion, and provide a sustainable transportation option for our communities. This expansion has the potential to significantly improve accessibility and economic opportunities for residents, while also contributing to environmental conservation efforts by reducing reliance on personal vehicles.
