

Submitter: B Keyser  
On Behalf Of: Innocence of Children  
Committee: Senate Committee On Education  
Measure: SB1583

Please stop passing legislation that removes the rights of the parents. The Oregon State Government are not the parents of the children in the school system. The State of Oregon's Education Department is organizing to remove all parents' rights, indoctrinate children into a gay or Trans lifestyle. As a Christian, Jew, Muslim we want our rights and our values accepted and acknowledged. Our faith does not allow the practices you are forcing on our children. Stop destroying the innocence of children and just educate them on the facts.

The cost of implementing this type of change in education is insurmountable. We are already the most overtaxed state in the union, and this is not how we want our money spent.
