Committee: Senate Committee On Education

Measure: SB1583

I support SB 1583. It will help prevent discrimination in book selection. Libraries strive to have materials for many different people. If someone does not like an item at a library, the person can choose not to checkout the material. This is especially important for parents. Parents do not get to choose what other families get to read. The US is experiencing an explosion of book censorship. Children deserve to see themselves reflected in the books they read. Please support SB1583 with the proposed amendment from the Oregon Library Association.

Thank you,
Tara Morissette
