Measure: SB1583

SB1583 OPPOSE SB1583

I am opposed to SB1583. Our local school boards are elected by the local people, and should have the say over what is and is not in the curriculum. They are the representatives of the local people, and should know best what the expectations of people in the district are.

There should be no sexual content of any kind in the libraries and curriculum of young children. It doesn't matter what type of sexuality it is. It is not appropriate for their age. It is harmful for young children to be exposed to this kind of material. They need to be allowed to have their youthful innocence and be allowed to learn reading, writing and arithmetic, and real science. There is no reason to centralize the curriculum to the state level ,where no one is accountable. Public schools are losing students because of things like this. Wake up and make our schools responsible again. Kids need to be allowed to learn, not be confused by different ideologies.

Please vote no on this horrible bill.

Thank You,
Karen Schmidlin
