

Submitter: Christine Haynie

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1559

Chair and members of the Senate Committee on Energy and the Environment.

I am writing to support this bill. Current targets for decreasing green house gas emissions are very much outdated. The planet has warmed at a much faster pace than expected.

There is a great urgency to set goals for earlier dates and lower temperature gains.

I urge you to support this bill.

Christine Haynie, Meddford Oregon
