

Submitter: Martha Pierce

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1559

I oppose this bill. It is over reaching and unrealistic. To e gotcha these changes would require tyranny. We live in a republic. A representative republic. The stated change comes in the form of a declaration to reduce greenhouse gas emissions in Oregon consistent with practices to limit global warming to 1.5 degrees Celsius. We are 1.1 degrees Celsius above pre-industrial levels now. Capping average global temperature at 1.5 degrees C (equivalent to 2.7 degrees Fahrenheit) probably isn't obtainable, and will never happen without complete socialism and hardships on everyone.

Please oppose this bill. It's not good for the people.
