

Submitter: Matt Anderson

On Behalf
Of:

Committee: Senate Committee On Veterans, Emergency Management, Federal
and World Affairs

Measure: SB1548

I would like to express my support for moving to permanent standard time. In my view this would be the least disruptive solution to the problems with our current time shifting cycle. The health and public safety benefits are numerous, and evidence suggests it would be more beneficial than the previous permanent DST legislation.

Thank you
