

Submitter: Daniel Bradea

On Behalf Of:

Committee: Senate Committee On Human Services

Measure: SB1591

I, Daniel Bradea support the measure to increase the care home capacity from five to seven residents. I feel my fellow providers and myself have the capabilities and the knowledge to serve and provide for the acuity of seven residents. By increasing capacity, it would ensure available beds for an aging population.

The Medicaid rate has not kept up with cost of living increases or the current inflation which has skyrocketed the prices on energy and consumer goods along with competitive Staffing wages.

A fair rate increase ensures continued 24/7 care of our elderly in a home like environment with individual quality of life goals. Thank you.
