

Submitter: William Reinstadler

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

This is just a bad bill for many reasons. Why does the state think they know better what textbooks or other materials every school in the state should use? The NEA has proven to be very ineffective in directing the states on a national level and now you want to bring that same idea to the district level? No. Some bureaucrats in Salem or Portland do not know what best for a school district in Medford or Lincoln City. Leave those decisions to the local schools and their boards. Please vote no on this measure.
