Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB4106

The timber industry is once again trying to make a legislative end run around the HCP in order to continue making profits from cutting down the public's forest (state land). Thanks to useful idiots whose campaigns they heavily fund (Rep. Javadi and Rep. Weber) we now have HG 4106 that perpetuates an outdated system of funding both the ODF and the timber counties with an already heavily clearcut state forest that if the bill passes will in short order quickly become an extended tree farm and all of the benefits provided by real forests will be lost. This bill must not pass. New solutions must be found to fund the ODF and the counties.
