

Submitter: Robert Egnor

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

Removing parental rights and the rights of our elected School board is completely and totally unacceptable. It is not the job of a legislative body to choose what our children get as educational materials. We pay the taxes for the education. They are our children. We vote for the board and you overstepping them or creating a division between them isn't acceptable. You say to prohibit discrimination of the books used. That goes both ways. You don't get to overrule the voices of your elected for the minority. That is discrimination of the wants and needs of your elected. You need to get back in your lane and stay fresh out of the tyrannical course you are attempting to take.
