

Submitter: M D

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB4129

This bill is poorly written. It actually removes choice from the customer which is what we ultimately want. SEIU is playing a game because they want union dues and actually do not care about PSWs or people with disabilities.

There is no one that believes removing choice is what is best for customers with disabilities. I don't understand the intent of this bill or any representative that would support this outrageous bill unless they were in the pocket of SEIU.
