

Submitter: Susanne Walters-Moore

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

The primary reasons that I am opposed to HJR 201 are:

1. It creates another state agency and thereby increases the state budget.
2. It removes some local, county and therefore local voter, control over some types of local funding.
3. It makes it possible for the state legislature to implement new, higher tax limits without the consent of the voter.
4. It will increase the amount of property tax burden on Oregon property owners and will therefore increase expenses for all Oregonians...the elderly will be greatly affected.
5. we do not need another tax burden in this state, we need to cut spending by tightening the states belt.
