

Submitter: Janice Flegel

On Behalf
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB4059

House Ag Committee Members,

Thank you for the opportunity to testify. I farm in Central Oregon and grow in a brassicas restricted district. I ask you to oppose this bill with the -7 amendment. Studies by Oregon State University showed that growing brassicas whether conventional or genetically modified had no effect on other seed crops, there was no disease or cross pollination issues.

I ask you to remember this and oppose HB 4059 with the -7 amendment. We would like to farm and make decisions on what crops we grow. Thank you for opposing the dash 7 amendment.
