

Submitter: Mary Chalkiopoulos
On Behalf Of: Our children
Committee: Senate Committee On Education
Measure: SB1583

I STRONGLY OPPOSE SB 1583!

This bill exemplifies the problem with our educational system and explains why Oregon schools and children are last in the nation and why students and parents are opting out of public schools. Instead of viewing the academic decline in our schools as an emergency, this bill proposes access to pornography as an emergency. Aside from the sheer absurdity of this bill, it is not in alignment with the purpose of education and seeks to take away control from parents and local school boards which is where these decisions belong. **VOTE NO!!**
