On Behalf Of: 1576  
Committee: Senate Committee On Judiciary  
Measure: SB1576

To Whom It May Concern,

I am an avid hiker and part of hiking group that traverses the Oregon coastal trails frequently. This would be a sad day if you were to decide to close or to allow these beautiful scenic trails to be monitored over something so frivolous. I'm sorry this woman got hurt but you take these hikes at your own risk. You do not lay blame on your fall onto cities who can ill afford the action you chose to do. Please consider this testimony as I was always brought up to believe you take responsibility of your own actions and not blame others for your decisions.

Thank you  
Kathy Phillips
