

Submitter: Barb Chatfield  
On Behalf Of: Citizens of Oregon  
Committee: House Committee On Rules  
Measure: HB4075

Why are we establishing another government agency?? If Oregon would have our prosecutors do their job then there would not need to be even a thought of a safety board. Constituents should be voting on something like this anyway. To slide this in is unjust and down right criminal- something you say you are trying to stop. I oppose this bill. Please vote against this.
