

Submitter: Paul Horton

On Behalf
Of: Citizen

Committee: Senate Committee On Veterans, Emergency Management, Federal
and World Affairs

Measure: SB1548

Dear Senate:

I am opposed to changing the Pacific Time Zone in Oregon to only having standard time.

I have lived in the Pacific Northwest for almost 60 years and in Oregon for 29 years. Summers are the best in Oregon and the extra hour of daylight at night is great personally for activities and for families. People do not want extra "light" in the mornings but in the evenings and after work.

A few years ago, Oregon, Washington, California and British Columbia all agreed to have daylight savings time all year which was passed by the state legislatures.

Please do not reverse the previous law or at least allow us to keep the current time system of daylight savings time from March through November.

Sincerely,

Paul Horton
