

Submitter: Billy Chatfield
On Behalf Of: Oregonians
Committee: House Committee On Rules
Measure: HB4075

Why do we need another government entity?? Is it to combat; rampant crime, out of control shoplifting, riots, people defecating in the streets, drugs being used and sold in front of day cares and schools, carjackings, property crimes etc etc?? We do not need a safety board we need the police and prosecutors to be able to enforce our laws. A safety board would be funded by more taxes on an already overburdened populace. Allow people already hired to do their jobs.

I oppose this bill especially when the constituents are not allowed to vote on it.
