

Submitter: Chad Kernutt
On Behalf Of: WE THE PEOPLE
Committee: Senate Committee On Energy and Environment
Measure: SB1559

Dear Lawmakers,

Please vote NO on SB-1559. Global warming has not been panning out for the liberals who run our state and country with their disaster and end of the world dates constantly changing when the times come and pass and their predictions have failed. So rather than see the deceptiveness in the concept, they pursue, full-steam ahead, under Climate Change. Folks God controls the weather and He's already told us how the end happens in the book of Revelations. He brings the fire. Not mother earth and climate change/global warming. The funny thing about this whole science is fact crowd which the Liberals constantly stick to in Loctite fashion, is that science and scientists who always seem to be atheists and anti-God just keep getting it wrong and have to keep coming up with new models to fit their narratives. Look at the earths temperatures and climate the last 6 thousand years since creation folks, there is a whole bunch of consistency going on there. Read a bible folks, the end is near and we don't bring it about, God does!! All this is going to do is raise prices across the board on us consumers, raise costs and taxes on businesses, and funnel state funds and tax dollars into democrat friendly unions, and democrat interests and boet projects which in turn funnel money into their election campaigns. It's one big crock and scheme and WE THE PEOPLE dont want our taxes and wallets to be any part of it!! Please vote NO on SB-1559. Thank you.

Sincerely,
Chad Kernutt
