On Behalf Of: Mr Oregon Opposes HB 4137
Committee: House Committee On Education
Measure: HB4137

I OPPOSE [HB 4137].

If the IB students are so highly educated, let them take a GED Exam and "test-out."
What good is an Oregon High School diploma compared to an IB degree?

[HB 4137] does raise questions such as, "If the IB curriculum is so great, why isn't the state of Oregon's curriculum just as good if not better?"

Why since 1968, some [56] years ago when the IB school was created it took Oregon's schools to want to accept this program in 2024? In the "short-session?"

Perhaps the Department of Education needs to be immediately overhauled terminating the employment of "political appointees" in the Education Department?

Let us also not forget to include the many tenured, non-performing Teachers should also simultaneously be given the "Boot."

Oregon schools used to be the finest in the nation. Now the school buildings are falling apart and reading, writing and mathematics have been supplanted by indoctrination into Marxist political philosophies of hate, division and sexual perversions.

Lottery money was promised to the Voters, to fund education. Instead Legislators allow the use of Lottery money to fund many State of Oregon Departmental programs.

And now, Legislators want [HB 4147] to congest our school system with students with IB degrees?

[HB 4147] smells really bad.

David S. Wall

Mr. Oregon Concurr, "[HB 4147] smells bad alright, but not as bad as the politics of the Legislators who sponsored [HB 4147]."
