

Submitter: Hillary Warner

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

Senate Committee On Education -

As a parent I am asking you to stop SB 1583. It is not in the best interest of our children! I am so appreciative of everything our local school boards are doing to oppose explicit, harmful material. Our children deserve the voice of their parents and that can be done most affectively at a local level. The material that is being pushed at our children goes against all the values being taught at home. We can see as a society that are children are in danger and the curriculum being pushed at them is exponentially compounding their problems. Please vote against this bill!!

Thank you-

Hillary Warner
