Capital Construction Joint 2024 Regular Session

United Way of the Mid-Willamette Valley's Cottages United Project

Testimony Letter dictated from recorded Interview

I've always loved to sail. Nothing could stop you, you are free as a bird. That's what it would be like to have a situation, in which I don't have to worry about if I have a place to stay or not or can I afford this.

I've needed my job, so that when I retire, they take me out in a pine box because there is now way that I could afford to live out there with what my social security would be paying.

When I heard about this project, it excited me because it checked all the boxes. I don't need a large place to live, I just need a studio size place with a kitchen, washer and dryer and a bathroom. That would be a dream come true, it would be a prayer come true.
