

Submitter: Kevin Schurter  
On Behalf Of:  
Committee: Senate Committee On Education  
Measure: SB1583

Hello,

I'm very much opposed to this bill that will limit yet again the ability of local communities to decide for themselves how they live. The state legislators have shown time after time that all they want is total control over every Oregonians lives. This is a continuation of that dogma- instead of a local school board able to make decisions based on local input- they will be forced to do the bidding of a few Portland area legislators under the threat of legal action.

Oregon has so many problems- almost entirely of the Democrats making(they've been the majority power for decades) they've destroyed Portland, and cannot see how their policies are contributing to that. Please do not Portland the rest of Oregon- kill this abomination of a bill.
