Measure: HB4090

I am a young Oregonian and Oregon's forests have been a backdrop for most of my childhood and adolescence, I would like them to continue to be present throughout my life for their recreational, scenic, and ecological value but HB 4106 puts them at risk.

I oppose HB 4106. If passed, this bill undermines the state forest plan and would result in more clearcuts, less habitat for salmon and wildlife, and more timber industry lawsuits. Please don't let this bill pass out of committee.
