

Submitter: Roxanne Dalton  
On Behalf Of: Healthy Homes  
Committee: Senate Committee On Housing and Development  
Measure: SB1530

Solving Oregon's housing crisis is about more than building new housing. It's also about keeping low-income families from losing their homes. When everyone in our community has a healthy home with affordable utility bills, it will contribute to greater housing security for Oregonians.

We are grateful for your recognition of the Healthy Homes Grant Program as a housing solution and your proposed investment of \$7.5 million in the program's Healthy Homes Repair Fund in the -3 amendment to SB 1530.

We respectfully urge you to invest as much as you can in this program, so it totals at least \$15 million this year.
