On behalf of Rent Assistance Funding Support,

Our communities need rental assistance critically. People lose home each day. Myself personally I have been without a home twice in past 3 years. Me and my young son. I have cried so much! How is that family can be without a home in an instant! Million dollar companies come to Oregon and buy properties and vacate and evict people out of their home right after they get the property. One in particular company from Seattle WA (Summerfield Property Management) bought property at Orchard Park that I lived in for 8yrs and shortly after they took the property I started to notice Uhaul trucks in and out day and night for over half a year and I was next, me and my 5 yr old son. Unbelievable!

This is inhumane!

I had horrible times with this company! They didn't inform tenants that they didn't renew the State permit for subsidized housing. I wrote a letter to the Senate and that's how I found out about it. When I confronted the office folks they started to treated me like I'm a criminal.

I'm still in disbelief!!!!

I have so much more to tell!

Someone needs to help me sue the company for all the people that lost their homes! Shortly after they evicted people the rent went up to the roof. This needs to stop! Oregon needs to protect their residents and our land and our homes! This needs to get better! It must!

Please help people regain their homes in reasonable prices. And stop outside companies come and buy our properties and make families homeless!

This is just Godly wrong.

Please.

I support this bill. I'll devote my life for this bill. I come and talk to anyone that needs me. As long as live.

Sincerely,

Sylvia Wilda
