Committee: Joint Committee On Ways and Means Subcommittee On Capital
Construction

Measure: HB5201

I am in favor for the government to fund the remaining amount to build a new stadium for the Hillsboro Hops. As a employee I see how much pleasure it gives our fans to go to a ballgame. We see a lot of families and a great time is had by all. People and families need a positive outing in these difficult economic times. The Hops do a lot of activities for our youth inside the stadium or offsite. Please support the building of the new stadium and keep the Hops in Hillsboro. Go Hops.
