

Submitter: Angaelika Gould

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

This bill undermines and violates the trust placed by parents to educators and pushes an agenda that has little to do with education and everything to do with making pornographic materials available to children. This bill legalizes the grooming and sexual exploitation of children through literature all in the name of "education".

Erasing God given identity and removing moral boundaries. This bill is harmful to children. A gateway to pedophilia and much more.
