Measure: HJR201

This proposed change is an egregious and flagrant attempt to take away any local control citizens have left. Your liberal ideas have brought this state to the brink of ruin. Getting the lotto instituted with promise of a "kicker" and then using that kicker to fund other things has certainly eroded your credibility. But now to remove any public trust that could be left is a poke in the eye to every voter in this state, liberal and conservative.

This bill should quickly be tabled (or die) or withdrawn. Local citizens have been deciding their own fates for years. There are Sheriff Districts and Law Enforcement Levies all over the state. We do not need "Big Brother" further removing any taxpayers freedoms.
