

Submitter: Mark Koenig
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1583

To whom it may concern,

I wholeheartedly support this legislation as without it, the current racist and theocratic elements of the Republican "MAGA" party is trying to force their social norms on society by enflaming their base to 'scare' them into what this legislation isn't trying to do. For example, it doesn't advocate for 'anal sex' or 'pedophila.' (source: other testimony on the site) This would be laughable except for the scare tactics being employed by several groups who oppose diversity of all types and are using these false arguments to cover for their racist and religious proclivities. If this is ultimately opposed, I would expect the Christian Bible to be banned as it discusses and propagates many of the concerns that have been expressed in testimony (rape, murder, sodomy, etc.). I am not in favor of ever banning or burning books. That was the NAZIs and we must never forget the tragedy and shame they brought on the German people.

Sincerely,
Mark Koenig
