

Submitter: Anita Lorenzen

On Behalf Of:

Committee: House Committee On Rules

Measure: HJR201

The fact this is even being considered is disheartening. Oregon has become a very expensive place to live as it is. Additional taxes will harm everyone and especially the senior population. Those elected are supposed to protect us all. These types of bills do the opposite. The population outside the Portland Metro area should not be expected to fund the massive mess Multnomah county has created for itself and let's face it, that's really what this bill is meant to do.

Please do your duty and protect ALL Oregon citizens and squash this now.
