On Behalf Of: Mr Oregon OPPOSES SB 1558
Committee: Senate Committee On Education
Measure: SB1558

I OPPOSE [SB 1558].

As a rule, there should be very few exceptions for changing a students class schedule especially, for those enamored with the idiocy to appease the "WOKE" generation.

Oregon public schools are in serious decline.

Parents with money are sending their children to private schools and or engaged in "Home Learning."

Asynchronous education seems like a good idea but; how much does it cost, is it effective and how is "testing on a subject" protected against "cheating?"

"Equity" is not "Equality" and it appears this distinction is not taught or comprehended.
